

MARK-UP COPY : REGULATION 24(6)

A supervising physician should be available for immediate telephone contact with the physician assistant any time the physician assistant is rendering services to the public. A supervising physician must be able to reach the location of where the physician assistant is rendering services to the patients within one hour.

A supervising physician will personally render treatment to a patient who has been admitted to a hospital by the physician assistant he supervises, within eight (8) hours of admission.

PROPOSED REGULATION 24(6) IN FULL

A supervising physician should be available for immediate telephone contact with the physician assistant any time the physician assistant is rendering services to the public. A supervising physician must be able to reach the location of where the physician assistant is rendering services to the patients within one hour.

A supervising physician will personally render treatment to a patient who has been admitted to a hospital by the physician assistant he supervises, within eight (8) hours of admission.
